♂ GWG1609z Hikoshigefuji 295

Kikitsurudoï W628 = Sire of GWG 1103

Kikitsurudoï is a large bull for his bloodline (100% Tajima). His progeny are usually good framed on feed, allowing for bigger and heavier carcasses. His father Kikitsurudoï TF146 and his grandfather Tanifukudoï are descendents of the most famous cow in Japan, Kikitsuru know nationally as the 'Hyogo Cow'. She is credited for increasing size in Tajima cattle.

Hikoshigefuji Y342 = Sire of GWG1027

Hikoshigefuji Y342 stems from the Itozakura bloodline. Every line traces to the most famous bull in Japan – Dai 7 Itozakura. Itoshigefuji TF147, Y342's sire, was born in Japan and weighs 1200 kg. He is a line bred son of Itofuji and his dam Dai 30 Noboru is a direct descendent of Takenotanitsuru. Y342's dam Hikohime T039 is a granddaughter of the famous Itozakura son Itohana (BMS of +4.3). Y342 progeny's carcass quality exceeded the expectations of his pedigree. The strength, constitution, milk and forage have left his daughters the best brood cows in his herd.
