GWG 1025 Ms Tetufuku x Blackmore Aizatsurudoi A015

Blackmore Kikutsurudoi W628 = father of GWG1025
Good size / well-proportioned calves, good meat quality.
Kikutsurudoi W628 is a big bull for its bloodline. His descendants are mostly well built animals with large and heavy carcasses. His father Kikutsurudoi 146 and his grandfather Tanifukudoi are descendants of the most famous Japanese cow – Kikutsuru, which is known in Japan as the ‘Hyogo Cow’. Her strength is to increase the size of the Tajima animals.

Blackmore Aizatsurudoi A015
Female offspring are good breeding cows and have a relatively good milk yield. They often have large loins and cube rolls. A015 is 91.5% Tajima.
